2.1. Summarize the video "How bonds work." Would you rather invest on bonds or on shares? Why?

2.2. Watch the video "Deficits and the national debt."

a) According to the video, the American national debt is near seventeen "trillion" dollars. Incidentally, what do we mean by long and short numeric scales? Why should we bear them in mind when reading texts in English?

b) Find some information about the Great Depression.

c) Are government budget deficits always bad? Justify your answer.

d) What is a vulture fund? Why is it called so? How can it affect a developing country?

2.3. Watch the video "How to fill in a cheque." How many different types of cheques are there? Describe them.

2.4. Suppose there is a course in business English that you are interested in. Write a formal letter to the instructor requesting information. Follow the basic structure explained by Dustin Wax and use expressions from the table in "Writing business letters in English."

2.5. By the end of this week, your glossary should be enlarged in 35-50 words. (It should contain 70-100 words.)
